

Jumpstart appoints distributor for Colombia and Venezuela

Jumpstart Energy Services has appointed Invsar S.A. (Bogotá, Colombia) as exclusive Tigerzyme[®] distributor for Colombia and Venezuela. See announcements in [News](#) on our website.

TigerSolv[®] products to be added to Jumpstart product line

Jumpstart is adding several bio-solvent/surfactant products under the name TigerSolv for well stimulation, heavy oil, paraffin treatment, and tank and pipeline cleaning. TigerSolv products have increased thermal stability for high temperature applications. Our website is currently being updated to include this new product family which will have a tab posted for TigerSolv shortly.

Tigerzyme® 22-E is an effective NEW enzyme surfactant fluid

Jumpstart is actively working with operators to treat wells with Tigerzyme 22-E to stimulate oil production. We'd like to learn more about your wells. For more information, see the [Tigerzyme](#) tab at our website along with a video comparison.

Jumpstart E-News is a bi-monthly update about Jumpstart and enzyme fluids used for well stimulation. To learn more about Jumpstart, visit www.jumpstartenergyservices.com Let's work together to improve your production!
